

**REMARKS**

Applicant has amended claims 10-32 to correct the numbering of the claims. In this regard, Applicant notes that such amendment to claims 10-32 was in form only to correct initial misnumbering of two (2) claim 10s, and no limitation has been added nor any substantive amendment related in any way to patentability made to the amended claims.

Consideration of the above amendment is respectfully requested because it does not add any new material and is filed prior to any consideration by the Patent Office.

An additional claim fee in the amount of \$9.00 (small entity) is included with this amendment. If any additional fees are due in connection with the filing of this Amendment or the accompanying papers, such as fees under 37 C.F.R. §§1.16 or 1.17, please charge the fees to SGR Deposit Account No. 02-4300, Order No. 040134.004CIP.

Respectfully submitted,

By: Eric J. Hanson, Reg. No. 44,738

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS

- [10]11. The apparatus of claim 7 wherein the fluid mixture delivery container includes a removable lid and oil mixture including natural ethereal oil, water, and an emulsifier.
- [11]12. The apparatus of claim [10]11 wherein the oil mixture is scented.
- [12]13. The apparatus of claim 1 wherein the attachment is a hook and loop attachment.
- [13]14. A method for wet filtering machine exhaust comprising positioning a plurality of filter sticks in the line of flow of machine exhaust, delivering a fluid mixture to the filter sticks, and disposing of pollutants from the machine exhaust collected on the filter sticks.
- [14]15. The method of claim [13]14 wherein said disposing of pollutants includes washing the filter sticks.
- [15]16. The method of claim [13]14 wherein said disposing of pollutants includes discarding one or more filter sticks.
- [16]17. The method of claim [13]14 wherein the fluid mixture includes ethereal oil.
- [17]18. The method of claim [16]17 wherein the fluid mixture includes natural ethereal oil, water, and an emulsifier.
- [18]19. The method of claim [17]18 wherein the fluid mixture is scented.
- [19]20. The method of claim [14]15 wherein the fluid mixture includes natural ethereal oil, water, and an emulsifier.
- [20]21. The method of claim [19]20 wherein the fluid mixture is scented.
- [21]22. The method of claim [15]16 wherein the fluid mixture includes natural ethereal oil, water, and an emulsifier.

[22]23. The method of claim [21]22 wherein the fluid mixture is scented.

[23]24. An apparatus for providing a desired smell into the environment comprising:

- a. one or more fluid conduction sticks;
- b. a scented fluid mixture conducted along said one or more sticks; and
- c. a fluid delivery container for delivering the scented fluid mixture to the sticks.

[24]25. The apparatus of claim [23]24 wherein the fluid delivery container is refillable.

[25]26. The apparatus of claim [24]25 wherein the scented fluid mixture comprises ethereal oil.

[26]27. The apparatus of claim [25]26 wherein the scented fluid mixture comprises natural ethereal oil, water, and emulsifier.

[27]28. The apparatus of claim [23]24 wherein the scented fluid mixture comprises ethereal oil.

[28]29. The apparatus of claim [26]27 wherein the scented fluid mixture comprises natural ethereal oil, water, and emulsifier.

[29]30. The apparatus of claim [28]29 further comprising a fan attached behind said one or more sticks for blowing said smell into the ambient air.

[30]31. The apparatus of claim [23]24 further comprising a fan attached behind said one or more sticks for blowing said smell into the ambient air.

[31]32. The apparatus of claim [24]25 further comprising a fan attached behind said one or more sticks for blowing said smell into the ambient air.

[32]33. The apparatus of claim [25]26 further comprising a fan attached behind said one or more sticks for blowing said smell into the ambient air.
